

NEGRO ESCAPES FROM COUNTY JAIL YARD

WAS TAKEN FROM CELL TO CUT DOWN WEEDS IN YARD.

Had Been Placed There Only a Couple of Days Since for Petit Larceny.

From Saturday's Daily Sun.

Arthur Polite, a young negro apparently about twenty years of age, escaped from the county jail yard Friday morning while he was supposed to be busy cutting down the weeds in the place.

Jailor Torley, who had been noticing the negro all the morning, had barely turned his back when he slipped out of the enclosure by the back gate and made his escape through the pasture in the rear of the lot.

Polite was convicted a couple of days since on a charge of petit larceny and was given a sixty days' sentence by County Judge Mason, and Sheriff Ramsey was awaiting the time limit before sending him to the camps, but he being one of the most available ones in the cell, the jailor took him out for the purpose of cleaning the yard, which resulted in his escape.

Mr. Torley, the jailor, had gone into the kitchen to see about preparing the noon meal for the prisoners and it was while he was thus engaged that the negro took advantage and slipped through the back gate.

Polite is very black and between 5 feet 8 inches or 10 inches tall, very shabbily dressed and had on dirty overalls with an apron front. Sheriff Ramsey has notified the nearby places, but made a special trip to Waldo yesterday in the hopes that he would see the fugitive along the road somewhere making for other quarters.

The sheriff has offered a reward of \$10 for his arrest and return to him, and is of the opinion he will be caught within the next few days.

MR. BALDWIN PASSES AWAY.

Died at the Sanitarium on Thursday Night at 9 O'clock.

Mr. B. L. Baldwin, who was in his eighty-fourth year, died at the Sanitarium on Thursday night at 9 o'clock after suffering about sixteen months from paralysis and other diseases with which he was afflicted.

He was removed to Gainesville from Fort Pierce some eight months ago in the hopes that the change would prove beneficial, but for the past eight or ten weeks he has been gradually sinking and it was known that he could not long survive.

Mr. Baldwin was for a number of years master mechanic for the old Florida Southern railroad and made his home in North Gainesville, having lived here with his family for several years. He was one of the charter members of Center Lodge No. 11 and this society has looked after him and made the necessary arrangements for the proper care of the remains, shipping them to Fort Pierce Friday at 12:50 p. m., where the interment will be held.

The deceased leaves one daughter, Mrs. Maude Goldsmith of Fort Pierce, one son, who is engaged as engineer on the East Coast, and two sons now living in the West, to mourn their loss.

Some few months before being stricken with paralysis, Mr. Baldwin invented an air-brake arrangement for use on locomotives, but for lack of funds failed to secure his patent, and his invention was lost. By some who saw it it was pronounced very successful, and would have revolutionized the method now employed.

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food—the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by W. M. Johnson.

MINERS DROP TO DEATH.

MEXICO CITY, Aug. 27.—A special dispatch from Mateahuala says that fifteen miners were killed and thirty imprisoned by the dropping of a cage into the La Paz mine there. The cable parted through failure of the brakes and the men dropped 1,500 feet.

The cage was sent to the rafters of the shaft house and the strain snapped the cable.

EARLY FIRE WAS THE WORK OF INCENDARY

SAWDUST SATURATED WITH KEROSENE BACK OF STAGE.

Manager Wellington States That the Loss to the Company Will Run About \$50.

From Saturday's Daily Sun:

The fire at the Air Dome on Friday morning was the work of incendiaries, as it has since been discovered that the place was well saturated with kerosene where the flames started from.

Policeman Owens had only a short while before heard a noise in that direction but upon visiting the place found everything quiet and all right. However, at a quarter to three o'clock, Night Clerk Leon Morris of the Brown House saw the flames from the front of the building and at once rushed and sent in an alarm.

The main stuff burned was combustible, and it is a wonder that the flames did not spread more rapidly, for it was found upon the arrival of the department, which responded with its usual promptness, that only the services of the chemical engine were needed.

The fire destroyed all of the scenery, the curtains, and also bursted a few of the electric light globes, and burned some of the canvas that covers the first part of the place.

Very little of the woodwork had been damaged when the department arrived and it was an easy matter for them to extinguish the flames.

Upon investigation Friday it was found that the shavings which were placed in the place for floor purposes were soaked with kerosene and this has led the proprietors to offer a reward and start an investigation to find the guilty parties.

Granulated Sore Eyes Cured.

S.S.S. HEALS SORES AND ULCERS

S. S. S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the place, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S. S. S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S. S. S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.
